

The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections.

Indiana's Telephone Privacy law has improved my family time at home, I am not interrupted at all hours by unwanted solicitations.

Since the Indiana's law was implemented I have not received any solicitations. I used to receive at least 3 calls per day. These call usually interrupted our dinner time and sometimes received calls as late as 10:00 P.M. Oftentimes, I would receive calls from the same place 2 or more times per week. I had even thought of cancelling my phone. The Indiana Law was most welcome, most appreciated and is very effective.
